# The History of Bozeman

**B**ozeman lies at the southern end of Montana's Gallatin Valley, an agriculturally rich area still considered one of the most fertile in North America.

For years prior to white settlement, Indigenous people, including the Bannock, Blackfeet, Crow, Pend d'Oreille, Kootenai, Nez Perce, Salish and Shoshone, hunted here and in the adjoining Yellowstone Valley. Game was plentiful and because the valley was used by so many tribes, the Blackfeet called it "Many Come Together Country."

The Headwaters of the Missouri River, located on the northern end of the valley, was visited in 1805 by Lewis and Clark during their trek to the Pacific. The explorers named one of the three tributaries of the Missouri the Gallatin River, in honor of Secretary of the Treasury Albert Gallatin. A year later, during the expedition's return trip, William Clark and a portion of the "Corps of Discovery" were guided through the valley to the Yellowstone River by a young Shoshone girl named Sacagawea.

Fur traders and mountain men passed through the area after Lewis and Clark. One of them, John Colter, was nearly killed by Blackfeet on several separate occasions. Another, Jim Bridger, eventually guided a wagon train of settlers into the valley in 1864, and the mountain range north of Bozeman is named in his honor.

The discovery of gold in the early 1860s brought thousands of miners into the territory. One of them, John Bozeman of Georgia, decided to lead immigrants to the gold fields through the Big Horn Basin. Unfortunately, the route trespassed through Native hunting lands. It soon became known as the Bozeman Trail, and while Bozeman was guiding a wagon train to the Gallatin Valley, his friends Daniel Rouse and William Beall laid out a town site. After Bozeman and his train arrived in late July of 1864, those passengers who decided to forego the mines and establish farms and ranches instead, named the new community in his honor.

Bozeman soon became the county seat of Gallatin County, and in 1867, following John Bozeman's death, the government established Fort Ellis just a few miles to the east of Bozeman. The fort was an important economic ingredient in the early growth of Bozeman, and many expeditions to Yellowstone Park departed from Fort Ellis. Soldiers from Fort Ellis also built telegraph lines to connect Bozeman to the outside world. Sadly, Fort Ellis troops participated in the Baker Massacre on the Marias River in northern Montana, where nearly two hundred innocent Blackfeet men, women, and children were killed.

Following the Plains Wars of the 1870s, the Northern Pacific Railroad reached Bozeman and the Gallatin Valley in 1883. Ten years later, the Montana legislature established the Montana State College of Agriculture and Mechanic Arts in Bozeman, a land grant college that today is Montana State University.

Today, Gallatin County covers more than 2,500 square miles, an area larger than the states of Rhode Island and Delaware. Because almost half of the land is publicly owned under the auspices of the Gallatin National Forest, State of Montana, Bureau of Land Management or the National Park Service, residents have ample recreational opportunities right on their doorstep.

NorthWestern Corporation, d/b/a NorthWestern Energy, is an investor-owned utility and one of the largest providers of electricity and natural gas in the northern tier states. We serve approximately 764,200 customers with electricity, natural gas, propane, or some combination thereof in Montana, South Dakota, Nebraska and Wyoming. Classified as a "mid-sized" utility by most industry standards, our service territory size is one of the largest in the country. The foundation of NorthWestern's energy business dates back to 1923, with the start of the utility operations in a few communities in South

Dakota and Nebraska. Our electric system serves 337 communities and surrounding rural areas covering two-thirds of Montana, eastern South Dakota, and Yellowstone National Park in Wyoming. Our natural gas system serves 202 communities and surrounding rural areas in Montana, South Dakota and central Nebraska. NorthWestern Energy has approximately 1,530 full-time employees. Our corporate headquarters is in Sioux Falls, South Dakota, with operational headquarters in Butte, Montana, and Huron, South Dakota.

## Operational Statistics

### Montana Operations

- Electric transmission and distribution services to approximately 389,519 customers in 208 communities
- Electric transmission lines - 6,819 miles
- Electric distribution lines - 18,177 miles
- Natural gas transmission and distribution services to approximately 199,171 customers in 150 communities
- Natural gas transmission lines - 2,166 miles
- Natural gas distribution lines - 4,945 miles
- Approximately 1,225 employees

### Economic Development

Economic vitality is crucial to Montana's future, and for many years, NorthWestern Energy has held a strong commitment to the communities it serves. NorthWestern Energy has a tradition of funding community activities, charitable efforts and economic development within its service territory. In 2023, NorthWestern Energy provided more than \$2 million in funds for community sponsorships, charitable contributions and economic development organizations in Montana, South Dakota and Nebraska. NorthWestern Energy is committed to serving as a meaningful and dedicated contributor to the economic development process, and we see our role as "energizing Montana's economy." Our emphasis is on "Building Montana's Future" and the mission of our Economic Development team is to help retain existing jobs in Montana, promote business expansion and recruit new businesses to the state. Our economic development employees assist site selection consultants, economic development agencies, government agencies, existing businesses and potential new businesses. They are actively involved in economic development initiatives at the local, state, regional and national levels. They can answer questions about utility rates, availability of utility distribution and transmission services, utility operations, power reliability, energy supply, and energy efficiency programs.

## Powering Montana's Business Community

At NorthWestern Energy, we're proud of our longstanding role in fulfilling the growing energy demands of Montana's businesses, and we're always glad to lend our support to new ventures, expansions and energy efficiency measures. ## MONTANA STATE UNIVERSITY

Montana State University is as remarkable and inviting as its setting. Created as a land-grant institution, MSU consists of an adventurous community of students, faculty and staff who are committed to addressing the world's greatest challenges. MSU empowers individuals to discover and pursue their aspirations, inspiring them to improve the human prospect through excellence in education, research, creativity and civic responsibility.

## LEARNING

MSU prepares students to graduate equipped for careers and further education. Working alongside world-class faculty mentors, students discover new knowledge that helps to improve the quality of life around the globe. This supportive and collaborative learning environment helps students succeed in competing for national and international scholarships and awards, including the Goldwater, Rhodes and Gates Cambridge scholarships.

## DISCOVERY

Montana State is the largest research entity in the state of Montana and consistently breaks new university records for research activity, surpassing \$230 million in annual research expenditures in 2023. Areas of expertise include biomedical sciences, energy, optics, solar physics, agriculture, the environment, snow science, Yellowstone studies, paleontology and more.

## ENGAGEMENT

MSU has earned the Community Engagement classification from the Carnegie Foundation for the Advancement of Teaching, which recognizes MSU's commitment to teaching that encourages volunteer service and the spreading of knowledge that benefits the public. Through student clubs, class projects and outreach activities, MSU students help people and communities around the globe.

## MSU HIGHLIGHTS:

- MSU is among the top 10 colleges and universities in the country for its number of Goldwater Scholarship recipients, the nation's premier award for excellence in math, science or engineering.
- The best and brightest Montana high school graduates choose MSU. Of the graduating high-school seniors who received the Montana University System Honors Scholarship in 2023, 72 percent chose to enroll at MSU. The 2023 entering class also boasts an average high school GPA of 3.53.
- MSU research has led to significant discoveries that are changing the world. With more than 331 active technology licenses, 64 active issued patents and 46 active plant variety certificates, MSU provides particular expertise in the fields of agriculture and natural resources, energy, materials and manufacturing, health and biomedical sciences, as well as big data and cyber infrastructure.
- Many of MSU's programs are recognized among the best in the country, including its programs in business, filmmaking, animal and range sciences and engineering.
- MSU is the largest university in Montana and the largest research and development entity of any kind in the state, resulting in economic prosperity for the area and ample opportunities for students to experience meaningful hands-on research projects.
- MSU students are engaged, consistently giving back to their communities through service-learning projects. Since 2022, Montana State University nursing students have collaborated with the Northwest Montana Veterans Food Pantry in Kalispell, helping to offer veterans and community members essential resources such as food and medical equipment. A key focus of their involvement has been the creation of impactful information campaigns on the importance of properly fitting medical equipment. Additionally, these students have played a crucial role in researching and crafting nutritious recipes tailored to the pantry's clients using available resources.

# MONTANA STATE UNIVERSITY INNOVATION CAMPUS

The Montana State University Innovation Campus is a high-tech R&D campus located in Bozeman's education and research corridor adjacent to the university. It provides a place where MSU, private, and government researchers and scientists collaborate to push forward cutting-edge research, advance technologies, and promote academic and industry collaboration.

As the leading university-related research park in Montana, the Montana State University Innovation Campus provides: a place where people and ideas come together; state-of-the-art R&D facilities to support early stage startups, as well as support small, medium, and large R&D companies; a place where students gain hands-on real-world learning experiences that result in full-time employment upon graduation; and services, programs, and expertise to support the transfer of technology from MSU and stimulate the growth of research and technology-based enterprises.

**Clusters of high-tech R&D companies in the following areas have already been established at MSU's Innovation Campus:**

Gallatin College MSU offers programs that accelerate the time to graduation and the start of a successful career. Our general education programs offer a supportive transition into college while workforce programs provide valuable skills necessary for jobs in thriving industries such as advanced technology, business, construction trades, healthcare, manufacturing, and more. Along with small class sizes, expert instruction, and extensive student resources, we help students discover their unique talents and passions on their journey to fulfilling their potential.

Offering two-year associate degrees and one-year certificates, students can explore multiple interests and personalize their pathway. With an emphasis on hands-on experiential learning, Gallatin College instructors teach cutting-edge skills, techniques, and software to ensure alignment with the current job market and leading industry practices. Along with affordable tuition, Gallatin College is pleased to offer numerous scholarships, allowing students to graduate with minimal to no student debt. Students also have access to countless MSU student services and events.

Gallatin College also provides developmental coursework for college students and early college options for high school students. Developmental courses are designed to help students develop foundational skills in math, writing, and the humanities to be successful in subsequent college-level courses. Dual enrollment and early college courses enable area high school students to earn college credit in anticipation of future college enrollment.

# Bozeman Public Schools- Elementary

At first glance, the Bozeman Public Schools might appear to be a small school district. There are eight elementary schools, two middle schools, two high schools and a charter academy and one 3-8 charter school. Currently, there are approximately 7,500 students and 900 full-time and part-time employees. The Bozeman Public School System covers an area much larger than the city of Bozeman. There are two districts, Elementary District #7 and the Bozeman High School District. The school system is a public entity under the authority of the state.

**All K-5 registration is completed online or in the Enrollment Office at 404 W. Main Street. The Enrollment Office can be reached at 522-6005.**

## Kindergarten

Kindergarten classes in the Bozeman schools are full-days during the regular school year for children who are age five on or before September 10. Kindergarten classes begin a few days later than the other grades to allow for kindergarten orientation, providing a positive and informative introduction for students, parents and teachers.

At the time of registration parents must provide the school with the child's birth certificate, immunization records, and Proof of Residency. State law requires that the child has the standard series of vaccinations and immunizations or submit either a notarized Affidavit of Exemption using a religious grounds form or a medical exemption form signed by a medical doctor.

## Elementary Grades 1-5

Students who are six years old on or before September 10 or who have successfully completed kindergarten in an accredited school in another state during the previous year, may enter first grade. The average class size is 20 students for grades K-2, 28 for grades 3 and 4 and 30 for grade 5

Bozeman Public Schools and Greater Gallatin United Way of Gallatin County partner to provide KidsLink before and after school programs at each elementary school.

## Bozeman Charter School (BoCS)

Bozeman Charter School served students in grades 2-8. The BoCS is an innovative and flexible educational model that has both online and in-person components. The BoCS is a competency based model and also includes expeditionary learning opportunities within the community. Core instruction is delivered remotely each morning. Students then come to school in the afternoons for social programming, interventions, enrichment, and expeditionary learning.

# Bozeman Public Schools- Middle & High School

## Middle School Registration

Registration for middle school students and students entering the middle school for the first time is completed in the spring at each middle school. Students who are unable to pre-register at this time will have the opportunity to do so during the summer months (new students need to bring their immunization records and birth certificates) at their respective middle school.

## High School Registration

Registration for high school students is completed in the spring. New students to the district should go to their respective High School Registrar, with their parents/guardians, to complete the registration process.

## Bozeman Hawks

**Bozeman High School** has a current enrollment of approximately 1,260. The school was twice named as one of the outstanding schools in America by the U.S. Department of Education and is accredited by the Advanced-Ed Accrediting Association and the Montana Office of Public Instruction. Several Bozeman High graduates have gone on to become Rhodes Scholars, many others have enjoyed successful careers as adults including playing in the NFL and becoming CNN news anchors.

## WATER CONSERVATION

At the City of Bozeman Water Conservation Division, we're dedicated to providing our community with tools and resources to make water smart decisions both inside and outside your home.

For information about what you can do to help conserve water and to find tips and rebates that will help you save water and money for your home or business, visit [www.bozemanwater.com](http://www.bozemanwater.com) and select Water Conservation.

## PARKING

**In City limits**, vehicle, RVs, trailers, drift boats, and other vehicles parked on city streets are required to be moved every 72 hours to avoid ticketing and towing.

**For life downtown**, the Parking Division manages the parking garage at 26 E. Mendenhall Street and four off-street lots, and on-street parking. **FREE** two-hour parking is available in all of these locations, with additional pay parking available at the garage location only.

For more information about parking within City limits, please visit [www.bozeman.net/parking](http://www.bozeman.net/parking).

## GARBAGE & RECYCLING

**Garbage Service:** The City offers weekly pick-up services for both residential and commercial customers in a wide variety of container sizes. Curbside pick-up is typically one time per week.

**Recycling Service:** Single-stream recycling with curbside pick-up every other week on your garbage pick-up day.

**Other Services:** Bulky item pickup, roll offs for larger projects, commercial services, and seasonal yard waste pickup.

Visit [www.bozemansolidwaste.com](http://www.bozemansolidwaste.com) or call 406-582-2332 to inquire about signing up.

# The City of Bozeman would like to be among the first to welcome you to our beautiful city!

## STREET MAINTENANCE & SNOW REMOVAL

**Winter Snow Removal:** After snowfall, our yellow plows clear emergency routes and main arterials as our first priority. Move your car off street (trailers too!) after snowfall so our plows can clear snow to the curb.

**Spring Street Cleaning:** In the spring, we send our street sweepers out to our residential streets as soon as the weather permits to clean our streets of winter gunk.

**Summer (also known as construction season):** Construction starts as soon as the weather permits in spring, and will go until the weather doesn't allow for work in the fall.

**Fall Leaf Pickup:** Every fall we'll pick up your leaves (for free!) as soon as the leaves have fallen and weather permits.

Keep up to date year-round on ALL Bozeman street conditions by following us on Facebook or X (formerly Twitter) @bznstreetreport. Or visit [www.bozemanstreetreport.com](http://www.bozemanstreetreport.com).

**SAFE • RELIABLE • DEPENDABLE**

Karst Stage, Montana’s premier transportation company, has a rich tradition in the Gallatin Valley. Current co-owner and General Manager Dan Martin says, “Over a century ago, Pete Karst delivered mail from Bozeman to West Yellowstone by stage coach and floated logs down the Gallatin River.”

While the business has been around a long time, Martin explains how they treat every day and opportunity as a new one. “Since the business’s inception, there has been a recurring theme of change. We have always tried to seize the opportunities by being community driven.”

An example of this is that Karst is contracted to run both the Bozeman (Streamline) and Big Sky (Skyline) transit systems. Based on community feedback, Karst pitched the idea of linking the two systems together to Skyline, and now they run 8 roundtrips daily.

Some of those connections reach far beyond the community because Karst run airport shuttles out of Bozeman Yellowstone International airport. Martin says, “People come into our beautiful airport from all over the world and call us to transfer them throughout Bozeman, Big Sky and

the Gallatin Valley. Our Yellowstone Day guided day trips have also become really popular. With our new location in Billings, we have really branched out to cover the majority of the state.”

Karst has 20 charter buses to choose from including mostly Prevost motorcoaches—the world’s most premium passenger coach. The coaches go anywhere from a local wedding to 14 day charters through numerous western National Parks.

Today the company employs nearly 100 people, and has about 50 vehicles to choose from. Martin concludes, “We are carrying on Pete Karst’s torch. Over a half million passengers travel on our vehicles to business meetings, on vacations, and to special events. But it’s our driver’s willingness to share their Montana experiences and their focus on safety that will make our passengers vacations stand out.”

## GALLATIN HISTORY MUSEUM

Step back in time and learn about Gallatin County's rich heritage. The Gallatin History Museum is located in the former county jail built in 1911. In addition to jail cells and a hanging gallows, the museum maintains displays illustrating the unique histories of a variety of people who have called Southwest Montana home. Permanent and changing exhibits feature early area history and artifacts, unique local stories, photography, and jail and law enforcement displays. Visitors can step inside a log cabin, view a model of old Fort Ellis, or browse the bookstore full of titles from area authors and historians. The research center has a photo archive of over 20,000 images. The museum is within easy walking distance of downtown Bozeman's many restaurants, art galleries and shops.

## THE MONTANA SCIENCE CENTER

## GALLATIN VALLEY MALL

**Gallatin Valley Mall has been southwest Montana's premier shopping destination for the past 40 years.** This year, Whole Foods Market, J. Crew Factory and Whimsy's Candy Co, will join Macy's, Barnes & Noble, Regal Cinemas, JoAnn Fabrics and Petco and the other 60+ retailers and restaurants at Gallatin Valley Mall. GVM strives to give you the shopping experience you can't get anywhere else with its wide selection of retailers and brands, plenty of parking, and unique events all in one convenient location.

Currently, GVM is under a transformational redevelopment of the property into a more diverse mix of space to a "Main Street" retail experience via public gathering spaces and a broad mix of retail tenants that cater to daily needs as well as fashion and entertainment. We look forward to bringing more shopping options to our community and are excited to announce our growing list of merchants for the near future.

# Farmer's Markets

---

Today's Farmer's Market is a far cry from those of the past, and from the chain supermarkets that are now commonplace across the nation. As cities grew, so did regulations regarding how farmers and rancher could sell their wares. Sometimes these aided the consumer, but far too often they served the needs of supermarkets and their giant parent organizations.

The Montana Department of Agriculture, with local grassroots support, established guidelines for farmer's markets across the state in 1977. The basic rule: you must grow it or produce it to sell it. Goods can come from anywhere; a seller's backyard or even one of Montana's biggest cattle ranches.

Interest in supporting native-grown, self-sustained agricultural produce spurred the development of the Montana farmer's market. Equally important is the fact that it is a place to see and be seen. Live music, arts and crafts and a laid-back western vibe give even the casual observer a reason to pause, enjoy and socialize. But perhaps it is most important to note that when visiting the farmer's market, you are helping to preserve family farms and Montana's cherished historical, cultural, and family values. Some items you'll likely find at a Bozeman Farmer's Market include: Goat Cheese, Dixon Melons, Flathead Cherries, Fresh Milled Flours, Gourmet Salsas, Assorted Livestock, Locally Raised Beef & Pork, Arts & Crafts, and Organic Produce.

# Performing Arts

## *Bozeman Symphony Orchestra*

The Bozeman Symphony, with a mission to engage, unite, and uplift the human spirit by presenting a repertoire of high-quality symphonic and choral music with guest artists from around the world, is one of the area's most highly regarded performing arts organizations. Each season, conducted under Maestro Norman Huynh's inspired leadership, includes an exciting Classical concert series; the Bozeman Symphony Presents Series of pops, jazz, and movie scores; and free family concerts. The Bozeman Symphony also shares the power of music through community outreach performances including its Far Afield program; Symphony Storytimes and Kinder-konzerts for youth; and a Joy Series that brightens medical patients' days. **For tickets or more information, visit [bozemansymphony.org](http://bozemansymphony.org).**

## *Opera Montana*

Opera Montana (formerly Intermountain Opera Bozeman) is Montana's first and only professional opera company. Since 1979, Opera Montana has brought professional opera and musical theatre to the Gallatin Valley and beyond. Its 2024-25 season consists of opera, musical theatre, and an educational program featuring Indigenous music and performers.

## *Ski the Cold Smoke!*

Bridger Bowl, a nonprofit, community ski area since 1955 is located only 16 miles north of Bozeman on Highway 86. A skier and rider's paradise, this community area offers prime skiing and riding in the Rockies at a fraction of the price.

Bridger Bowl boasts 8 chair lifts and 3 surface lifts with terrain ranging from a dedicated beginner area to the experts only Schlasman's lift (transceiver required) which takes adventurous skiers to the summit. Double black diamond skiers and riders will find a vertical playground of chutes, snowfields and cliff bands. Beginner and intermediate skiers will enjoy over 500 acres of beautiful, wide-open low angle terrain by the popular Alpine Cabin.

With 2,600 vertical feet covering 2,000 acres of terrain, 4 beautiful day lodges, a professional ski and snowboard school and a complete line of rental and retail services, your whole family will fully enjoy this Montana gem. Large alpine bowls and superb natural terrain provide the opportunity to hone skills and test limits. Bridger Bowl is one of the best ski areas in North America offering a big-mountain experience with a friendly, local vibe.

# CROSS COUNTRY SKIING IN BOZEMAN

The mountains and meadows of Bozeman, Montana, hold some of the best cross country skiing in the country. There are 70+ km of tended and groomed ski trails—including a loop with snowmaking in downtown Bozeman. Combine that with another 45 km of trails at Crosscut Mountain Sports Center, adjacent to Bridger Bowl, plus destination ski touring areas in an easy day's drive, and you'll find that Bozeman is a Nordic mecca for both professional and recreational skiers.

## CROSSCUT MOUNTAIN SPORTS CENTER

Located in Bridger Canyon, adjacent to Bridger Bowl, Crosscut includes 45 km of skate and classic skiing, as well as narrow-gauge snowshoeing, fatbiking trails, and access to uphill travel for backcountry skiing. A 25-minute drive from downtown Bozeman. Day pass: \$30 for adults; \$25 for seniors/college students/military; \$20 for youth, children under 10 free.

[www.crosscutmt.org](http://www.crosscutmt.org)

## COMMUNITY NORDIC TRAILS

84 km of "free" access, groomed by the Bridger Ski Foundation (BSF). These trails are on a combination of private, Forest Service, and city land. (This system is unique: skiers are asked to support the donor-funded grooming with voluntary trail passes, but those who can't afford a pass can still ski!) Passes and grooming reports at [www.bridgerskifoundation.org/trails](http://www.bridgerskifoundation.org/trails).

## THERE ARE SEVEN GROOMED LOCATIONS IN THIS SYSTEM:

### HIGHLAND GLEN (10 KM)

Features rolling terrain through fields, sagebrush, and low hills close to downtown.

Parking: at the Softball Complex lot, on the corner of Ellis St. & Highland.

### SUNSET HILLS (5KM)

This loop winds up and down through a large field nestled between Lindley Park and the hospital. It's the go-to spot for after-school ski programs, lunch and post-work skis. BSF has snowmaking here, making it perfect for low-snow and spring-skiing conditions.

Parking: at the Softball Complex parking lot, on the corner of Ellis St. & Highland.

### BOZEMAN CREEK/SOURDOUGH CANYON (25 KM)

Bozeman Creek (aka Sourdough Canyon) is a wide track that gradually climbs up the canyon, alongside Bozeman Creek on the national forest, with both classic and skate lanes. This is a popular multi-use trail, so expect to see lots of dogs, walkers, and skiers in the first few miles. Ski to Mystic Lake and back for 32 km (about 20 miles).

Parking: at the trailhead at the end of Sourdough Canyon Rd. Or access the upper reaches of this trail via Moser Trailhead in Hyalite Canyon.

### BRIDGER CREEK GOLF COURSE (8 KM)

The Bridger Creek Golf Course provides some of the best beginner and intermediate in-town cross country skiing in Bozeman, with beautiful views of the Bridger Mountains.

Parking: at the golf course's clubhouse, 2710 McIlhatten Rd. There are loops on both sides of the road. Do not park in residential areas.

### HYALITE (36 KM)

Hyalite Canyon serves as the recreational hub of Bozeman. The Forest Service's winter trail system provides endless miles of cross country skiing—both groomed and ungroomed—throughout the canyon. Most of the 30 km of groomed trails here are better suited to classic skiing. The Custer-Gallatin National Forest provides the primary grooming, with assistance from the Bridger Ski Foundation. The grooming here is less frequent.

### SACAJAWEA MIDDLE SCHOOL (1 KM)

This 1 km loop is located on the athletic fields behind the school, with flat, beginner-friendly terrain. The public is welcome to use this trail outside of school hours.

### CHIEF JOSEPH MIDDLE SCHOOL (1.24 KM)

Beginner-friendly trails at this middle school are open to the public outside of school hours.

## SKI KIND

When we ski, we are our best selves, whether we are speeding along, shuffling, or just learning to stay upright. Together, we can share the trail, ski safe, and make this a welcoming place for all.

## SKI KIND

Bring your best self to the trail and spread the joy of skiing. Share your knowledge and help others.

## SKI NO TRACE

Leave only tracks. Don't leave poop (your's or your pup's) or trash near the trail.

## SKI INCLUSIVE

Share the trail with all speeds and abilities. Yield, slow down, and give a friendly hello to make everyone feel welcome.

## SKI AWARE

Know what type of trail you're skiing and the rules for that location. Be aware of terrain, grooming equipment, and other trail users.

## SKI SUPPORTIVE

Give back to the trails you ski. Volunteer. Donate to local trail organizations.

# Custer Gallatin National Forest

From rugged mountain terrain to fields and roadways, some of Montana's most beautiful sights can be found when you cross-country ski or snowshoe the forest and backcountry of Custer Gallatin National Forest.

You can experience cross-country skiing and snowshoeing in Montana the moment you arrive in Bozeman. There is a groomed trail in Lindley Park, located on East Main Street, as well as several other in-town trails, providing cross-country skiers and snowshoer's the opportunity to enjoy their sport right away.

The Custer Gallatin National Forest provides access to hundreds of acres of winter wonderland with spectacular views and wildlife viewing. Some popular trails near Bozeman include Bear Canyon, Hyalite Reservoir area and the Mystic Lake trail.

You may enjoy an overnight backcountry experience by renting a forest service cabin. Space and cabins are furnished with bare basics, are remote, limited, and rented on a first-come-first-served basis. Check the number listed below for more information.

Within a few hours' drive from Bozeman, there are two groomed cross-country public trails including Bear Creek Road near Gardiner (near the north entrance of Yellowstone National Park) and Rendezvous Complex near West Yellowstone.

Call the Chamber or check with local ski shops for locations in the city and nearby trails.

## Snowmobiling

Bozeman area snowmobile enthusiasts have access to thousands of miles of groomed and un-groomed trails and some of the longest snowmobile trails in America. The Bridger Mountains Trail System consisting of Brackett-Fairy Lake and Olsen Creek-Bangtail Ridge trails is just 15 miles northeast of Bozeman. The Gallatin Range is just minutes south of the city. Here, snowmobilers can take advantage of the historic Big Sky Trail that starts southwest of town at Little Bear Creek and traverses 123 miles through the Gallatin Range to West Yellowstone. There are five additional access points along this trail. For families and the advanced riders, Busk Creek Ridge Trail off US Hwy 191 just south of Big Sky, provides miles of excellent play areas, as does Taylor Fork/Carrot Base, located 15 miles further south. More extreme riders will appreciate the Portal Creek to Buffalo Horn segment of the Big Sky Trail. Go east and just over Bozeman Pass, the Crazy Mountains offer a wide range of trails for your pleasure. Snowmobiling in Yellowstone National Park is available through commercial guides and can be arranged through various rental operators in West Yellowstone. Non-guided snowmobiling is only permissible with a non-commercial snowmobile access permit, which are awarded annually through a lottery system. Regardless of your ability, the Bozeman area has snowmobile trails that will provide days of fun and excitement.

## BELGRADE

Incorporated in 1906, this important wheat shipping and milling center and one-time home of the famed Belgrade bucking bull, was established. A Serbian who purchased land in the vicinity is thought to have named Belgrade after the capital of his country. The first steel grain elevator in Montana was built here in the summer of 1904 by the Gallatin Mining Company.

## MANHATTAN

A far cry from its New York cousin, Manhattan's claim to fame is its annual Manhattan Potato Festival, featuring potato products from local farmers. Initially called Moreland, families from the Netherlands moved in to grow near the new little town of Manhattan-renamed in January 1891 by a group of New York City investors who operated the Manhattan Malting Company. Incorporated in 1911, it was established in 1884 on the new railroad line.

## THREE FORKS & MISSOURI HEADWATERS STATE PARK

The town of Three Forks is situated at the headwaters of the Missouri River. This area is the geographical point where the Gallatin, Jefferson, and Madison Rivers join to form the Missouri River and has some of the most colorful early history in Montana. It was significant to Lewis & Clark on their epic journey, to fur trade, and to the early Montana settlement. In addition, Three Forks was the crossroads of Indian trails. It was here that, just west of town, Sacagawea as a child was abducted from her tribe, the Shoshoni. Later, as an adult, she famously guided Lewis & Clark Expedition through the area.

The Lewis & Clark party arrived at the headwaters of the Missouri River in July 1805 and camped a week along the Jefferson River just above the headwaters, while Clark recovered from a fever. In 1806, Clark was guided by Sacajawea across the valley from Three Forks to the pass leading directly into Yellowstone.

Visit the Headwater State Park or the Headwaters Heritage Museum in downtown Three Forks for more history on the Three Forks area. On your visit, you can enjoy camping, hiking, wildlife viewing, picnicking and historical interpretive sites. The Missouri Headwaters State Park is located four miles north of Three Forks just off Interstate 90 and is open year-round. Parks fee charged.

## VIRGINIA & NEVADA CITY

Once a booming gold mining town, Virginia City was also the original capital of Montana territory. Located 14 miles from Ennis, on Highway 287, Virginia City offers visitors the opportunity to walk along boardwalks and relive a part of the past. Both historic and architecturally significant, the past comes alive, and your imagination will take over when you visit the restored buildings in this city frozen in time.

Virginia City's Opera House offers summer stock theater, providing the night after night of authentic Victorian theater and a rollicking vaudeville variety show. This is Montana's oldest professional theater, and not to be missed. Once a lawless town, Virginia City's darker history includes many tales of vigilantism, widely considered to be blight on the history of Montana. Visitors to Boot Hill will find the graves of five road agents that were hung in 1864.

## LEWIS & CLARK CAVERNS

Located about 1 hour from Bozeman, these spectacular underground caverns offer visitors a chance to take a guided tour through the cave. Discovered in the early 1840s by local ranchers, the caves have been toured by visitors since the early 1900s. Proclaimed the Lewis & Clark Caverns by Theodore Roosevelt, the caverns offer visitors a unique look at nature's underground beauty.

The Park also offers an information center, fireside programs, a café, gift shop, and shady picnic areas. The Park is open year-round for camping and hiking. The caverns are open for tours from May 1 – September 30. Call for admission fees.

## LIVINGSTON

Just over the Bozeman Pass is a taste of the Wild West in Livingston, home of Calamity Jane and many more characters. Jimmy Buffet sings about it in Livingston Saturday Night – "A rockin' and a rollin' on a Livingston Saturday Night." You'll find delicious restaurants, exquisite fare, unique clothing and gifts as well as The Sleeping Giant resting in the Absaroka Mountain Range, visible just down 2nd street from most places in Livingston. Be entertained by the Blue Slipper Theatre and Firehouse Five Playhouse featuring musicals, drama and comedy. Visit The Livingston Depot Center which captures the spirit and history of the West through a variety of media, artifacts, photography, art and costumes. More than 500 objects and photos are exhibited.

## GARDINER

Gardiner is located at the north entrance to Yellowstone National Park which features the famous Roosevelt Arch as well as numerous restaurants and shops. Founded in 1880, Gardiner became a center of activity for visitors to the region, serving as the original and only year-round entrance to the park. This frontier town fed and sheltered miners and entertained the early soldiers who operated Yellowstone National Park. Elk regularly roam around town, while bighorn sheep come down from the mountains to graze within view.

## GALLATIN GATEWAY

The agricultural and cattle shipping center was originally named Salesville for Zachariah Sales who settled there in 1865 and operated a sawmill for logs floated down the West Gallatin. Its name was changed in 1927 when it became home to the Milwaukee Railroad's 42,000 square-foot-Spanish style building, the Gallatin Gateway Inn, and the starting point for trips by bus through Yellowstone National Park.

## GALLATIN CANYON & THE BIG SKY AREA

There's more to Big Sky than just "Skiing the Sky." Big Sky, just 48 scenic miles from Bozeman, offers a variety of attractions year-round in one of Montana's top recreation spots.

Big Sky and the Gallatin Canyon are surrounded by some of America's most pristine land. The Lee Metcalf Wilderness Area and the Yellowstone ecosystem help comprise more than 3 million acres of land set aside forever for protection and enjoyment. Several mountain peaks are more than 11,000 feet, including Big Sky's own Lone Peak at 11,166 feet. With this serving as a backdrop, visitors can look forward to a trip filled with the finest in outdoor activity and grandeur.

Dedicated and casual golfers alike are presented with a treat and a challenge when they enjoy a round at the Big Sky Golf Course, an 18-hole Arnold Palmer design that will accommodate all skill levels. For those who want to experience the wilderness up close and personal, area stables offer guided horseback trail rides lasting anywhere from one hour to a full day. Scenic gondola rides are also available high above the resort on majestic Lone Mountain. Bring a mountain bike (rentals are available) and ride down, or hike to the top and back down on one of the many trails back to the base area as you take in the breathtaking vistas and stunning wildflower displays. Walk quietly and you might be treated to some wildlife viewing, too. Five blue-ribbon trout streams grace the Canyon area, including the Gallatin River, where the movie "A River Runs Through It" was filmed. Try your hand at a self-guided trip or take advantage of local outfitters who offer guided wading, float tubing, or boat fishing trips. The Gallatin River is also host to white water rafting and scenic floating opportunities.

Special events take place all summer long at Big Sky, highlights by the Big Sky Arts Festival. Featuring classical symphony, jazz, bluegrass, country, folk, and pop concerts, the concerts are festive outdoor events and not to be missed.

Plan a ride down the Gallatin Canyon- it is never tiring and one of the most beautiful trips you will ever take.

## HYALITE CANYON & RESERVOIR

The 34,000-acre Hyalite Drainage, part of the Gallatin National Forest, is a spectacular mountain valley that sits between the Gallatin Canyon and Paradise valley just south of Bozeman. This popular recreational area contains a large reservoir built in the 1940s, which today has a holding capacity of 8,000 acre-feet. Its coves and caves, plus an easily accessible pier, offer great trout fishing spots.

Hyalite Reservoir provides drinking water for the city of Bozeman and irrigates the Gallatin Valley. The Hyalite Drainage Recreational Area is surrounded by 10,000-foot mountain peaks, creeks, streams, lakes and numerous waterfalls. The hikes to Blackmore Lake, Palisade Falls, Emerald and Heather Lakes, and the trail to Hyalite Lake all lie in the Hyalite Canyon. This glaciated, carved valley is mesmerizing in its beauty and splendor, and a great getaway for all to enjoy.

## HEBGEN LAKE

This reservoir of Northwestern Energy, with a capacity of 331,537-acre feet, supplies supplementary water in dry season to the hydroelectric plants on the Madison and Missouri. Construction of the dam began in 1908 and was completed in 1915. It's a beautiful lake to visit on your way to Yellowstone, do a little fishing, or water skiing in the summer.

## QUAKE LAKE

The Hebgen Lake area was rocked by an earthquake that measured 7.1 on the Richter scale August 17, 1959. The after-effect of the earthquake was the formation of a lake, appropriately named Quake Lake. Quake Lake was born when part of the mountainside slid into the Madison River, dropping the earth 19 feet, and damming the water, tragically killing 28 people at a nearby campground. The Earthquake Visitor's Center, staffed by Forest Service, is located on U.S. 287. Hiking trails and campgrounds are also in this area.

## WEST YELLOWSTONE

This Montana town was first settled and became an "official" entrance to Yellowstone National Park in 1907, the year the Oregon Short Line branch was completed. In 1908, Samuel P. Eagle and Alex Stuart opened the famous Eagle's Store, a corner store of the town to this day. In 1910-11, the West Gallatin Wagon Road was built from Taylor's Fork to the point which it had reached in 1989. Today, West Yellowstone is an active tourist town sitting at the west entrance to Yellowstone National Park. Its newest attractions are the Grizzly Discovery Center and the National Geographic IMAX Theatre, giving visitors the educational opportunity to view grizzly bears and wolves closely.

# YELLOWSTONE NATIONAL PARK

## WORLD'S LARGEST COLLECTION OF GEYSERS

Yellowstone National Park, established in 1872 and located primarily in Wyoming, is America's first national park. Contained within its borders are more than 2 million acres of natural wonders, wilderness settings, and unique experiences that await park visitors. Yellowstone National Park sits on top of a dormant volcano and is home to more geysers and hot springs than any other place on earth.

Yellowstone National Park is home to many species of North American wildlife roaming in a wilderness virtually untouched by modern influence. Visitors are treated to the sights of bison, elk, moose, bear, bighorn sheep, deer, antelope and a myriad of smaller wildlife and birds all living free as nature intended. In their protected habitat, most animals are willing to be watched and photographed from a respectful distance. Be cautioned these are wild animals and should be treated and viewed as such.

## Geyser Country

Home to more than 10,000 hydrothermal features in the park Geyser Country consists of geysers, hot bubbling pools, colorful paint pots and the world-famous, Old Faithful. Don't worry about a no-show; Old Faithful has rarely missed a "performance" in more than 120 years, shooting steaming water into the sky every 81 minutes. You can walk along the steamy Midway Geyser Basin boardwalk to Yellowstone's largest hot spring, Grand Prismatic Spring. This 370-foot-diameter deep blue pool is ringed with yellow-and-orange colored bacteria, giving it a cool prism effect.

Lodging can be found at The Old Faithful Lodge Cabins, The Old Faithful Snow Lodge and Cabins and the National Historic Landmark, Old Faithful Inn. Geyser Country offers a variety of dining options, gift shops, and interpretive sightseeing tours that take you closer to the land that is a reminder of the earth's fiery beginnings. Nearby, Madison Campgrounds have sites for tents or recreational vehicles.

## Canyon Country

The Grand Canyon of Yellowstone is the most breathtaking sight inside Yellowstone National Park. Over 10,000 years in the making by the natural process called erosion and almost twice as high as the Niagara, these 20 miles of twisting canyon and sheer rock cliffs have been carved 1,200 feet deep and up to 4,000 feet wide. From several vantage points, you can view the Lower Falls plunging 308 feet steeply into clouds of mist, or the Upper Falls tumbling down 109 feet. You may also visit Hayden Valley, one of the top spots for wildlife viewing in Canyon Country. Glaciers have shaped the ancient lakebed and deposited the soil that makes this a supreme wildlife habitat.

In Canyon Country, you will find dining, cabins, two lodges and campgrounds.

## Mammoth Country

Few of Yellowstone's hydrothermal features have the sheer grace and beauty of Mammoth Hot Springs. Mineral-laden hot waters from deep beneath the earth's crust find their way to the surface and build tiers of cascading, terraced stone. Begun thousands of years ago, the sculpturing of the terraces continues as thousands of gallons of water well up and deposit large amounts of travertine daily.

Mammoth Country is home of the only winter location in Yellowstone that is accessible by automobile. Located near the North Entrance, the Mammoth Hot Springs Hotel—offers comfortable accommodations and exquisite dining in a casual setting.

In winter, miles of Yellowstone backcountry offer groomed roads for snowmobilers and cross-country skiing on tracked trails. Continue your stay in Mammoth Country with snow coach tours, ice skating and wildlife tours.

## Lake Country

In Lake Country, visit one of the world's largest alpine lakes, Yellowstone Lake. The lake sits within a large caldera that was born by the fire and ice of volcanoes and then carved and filled by glaciers centuries ago. Lake Country is the realm of native cutthroat trout that migrate into meadow streams to spawn, and you may also watch moose, bison and bear, which will wander the cold shores during the winter time in Yellowstone.

## Roosevelt Country

Named after the 26th president, Theodore Roosevelt, who once camped near the area, The Old West comes alive in Roosevelt Country. This is the land of rolling sagebrush, fir, pine, spruce-covered hills, and streams full of trout. The Lamar Valley is the perfect area to watch wildlife in their natural habitat roam.

While in Roosevelt Country stay in the rustic Roosevelt Lodge Cabins, built in the 1920's near Yellowstone's Tower Falls area. Awaken your "Old West" spirit and enjoy horseback trail rides, stagecoach adventures and the popular, Old West Dinner Cookout, where the steaks are tender, breathtaking scenery, and all are friendly.

## Snow Coaching

Snow coaches are a cross between a bus and a snowmobile. These strange-looking machines provide a comfortable form of winter transportation into the park. Equipped with heaters, large windows and roof hatches, the snow coach has been transporting winter visitors into Yellowstone National Park for more than 25 years. Snow coaches are equipped with ski racks and room for other equipment. Those interested in cross-country skiing or overnight stays may want to take advantage of Yellowstone in the winter.

There are two entry locations for snow coaching in the park – West Yellowstone and Mammoth Hot Springs.

Motels and snow coach reservations must be made in advance. You may book individual seats or charter the entire coach for one day.

## Snowmobiling & Cross-Country Skiing

Both cross-country skiers and snowmobilers will enjoy the 1,000 miles of trails available in Yellowstone National Park. The United States Nordic and Biathlon teams train in this beautiful area. The west entrance of the park is only minutes from West Yellowstone, a town where snowmobilers share the streets with motorists.

For lodging, campgrounds and activities, reservations should be made well in advance of your arrival.

# CAMPING

Surrounded by public lands, the Gallatin Valley offers abundant camping potential in the heart of some of the best scenery and recreation in America. Easy access and more modern conveniences make Bozeman Ranger District Campgrounds a popular destination where campers have their pick of sites, ranging from open-air flatlands along river bottoms to well-shaded units tucked away at the base of spectacular mountain ranges. Come and explore this marvelous treasure and discover all that it has to offer.

# SUMMER RECREATION

## HORSEBACK RIDING

Seeing the West from the saddle is part of the classic. This activity is enjoyed by individuals of all ages. Several local outfitters offer a wide variety of horseback riding options in the Bozeman Area. Hourly, half-day, or full-day rides can be combined with other activities such as rafting, hunting, and photography.

Wrangler-lead expeditions include everything from leisurely rides through pine forests, sagebrush flats and hanging meadows to more rugged trips up back country switchbacks and over mountain streams. The unparalleled views of the Gallatin Valley wilderness, in addition to the wide variety of wildlife, you're likely to make this a memorable family activity.

## BOATING & JET SKIING

Boating and Jet Ski enthusiasts in Bozeman are not far from fun! Ennis Lake (50 miles southwest of Bozeman) is formed by the Montana Power dam on the Madison River at the head of the Bear Trap Canyon. The lake is fairly shallow with an average depth of 8 feet, 20 feet at the deepest. This means the water is warm and just right for water sports, particularly in the morning before any afternoon winds. Canyon Ferry Lake (70 miles northwest of Bozeman) is very popular and receives the most use of any lake in Montana, due to its size and location. Canyon Ferry covers 35,181 surface acres and 76 shoreline miles. Harrison Lake (50 miles west of Bozeman), also called Willow Creek Reservoir, fills from water running down the eastern slopes of the Tobacco Roots and also offers scenic boating, waterskiing and jet skiing opportunities.

# RIVER RAFTING

The Yellowstone, Gallatin and Madison Rivers, once used by Indians, trappers, and early explorers as access to the mysterious Yellowstone wilderness, now provide excellent recreation for whitewater enthusiasts coming to the Bozeman Area.

Located less than a half-hour drive southwest of Bozeman, the Gallatin River offers the most challenging rafting near Yellowstone National Park. The Gallatin is a small river that runs through a rocky canyon, providing incredible views of mountain meadows and towering cliffs. In June, when the water is high certain stretches of the river are class IV+. For people seeking a milder experience, there are many other areas of the Gallatin that offer fun but less challenging rapids. As the water level drops, the intensity of the rapids subsides, but even in August, there are challenging and exciting stretches of this amazingly scenic and magical river. Local outfitters offer half-day and full-day trips suitable for all levels. It's recommended that only experienced boaters plan for an unguided trip down the Gallatin.

The Yellowstone River runs out of the north entrance of Yellowstone National Park, and commercial rafting is available out of Gardiner, about 1.5-hour drive southeast of Bozeman. Yellowstone is a big-volume river with rolling waves for an exciting ride. Yellowstone has a variety of different flat water stretches suitable for canoeing, rafting and kayaking.

The Madison River, located west of Bozeman has a one-day stretch of class 3-4 whitewater, through Bear trap Canyon. Because of its remote location, this float requires an advanced shuttle. Below the Bear trap, flat water sections of the Madison are popular for tubing, canoeing, and drift boats throughout the summertime!

**Don't miss an opportunity to explore all the amazing views & rivers!**

## OUTDOOR EQUIPMENT RENTALS

By far the most enjoyed activity by the locals! Floating the Madison River is a treasured pastime and a "must do" when you visit the Bozeman Area. The most popular section of the Madison River Float is a relaxing and fun 6 ½ miles. The float parallels Hwy 84 through the Madison Canyon about 24 miles west of Bozeman. The fun begins at the Warm Springs put-in and end either after 6 ½ miles at the Blacks Ford take-out or, for a more adventurous trip, ends after 11 miles at the Greycliff camping and day-use area. If you wish to get a little more off the beaten path, try floating the Jefferson River in the Three Forks area.

# THE NATION'S FINEST TROUT FISHING

“From the pocket water of Gallatin Canyon to the long riffles of the Madison and the classic runs of the Yellowstone, it doesn't take long for an angler to realize that southwestern Montana is home to some of the nation's finest trout fishing. Centrally located, Bozeman offers prime access to each of these blue-ribbon streams, not to mention an endless array of smaller stream and stillwater options. Native cutthroat are only in 4% of their historic range in the Missouri System and only slightly better in the Yellowstone, so I wouldn't say they are abundant. Rainbow and brown trout are. Be it winter or summer, opportunities are widespread — check with local shops for updated information on current conditions and guided trips.”

—Dave McKee, Bozeman Daily Chronicle columnist

## 2024 NON-RESIDENT FISHING LICENSE FEES (SUBJECT TO CHANGE)

1-Day License (consecutive days): \$14, 5-Day License (consecutive days): \$66, Season License: \$100, Conservation License: \$10 (required to purchase fishing or hunting licenses), Aquatic Invasive Species Prevention Pass: \$7.50 (required to fish each year in Montana)

## FISHING LICENSE INFORMATION

Licenses can be obtained at the Fish, Wildlife and Parks office or at most fishing and sports stores. Non-residents should check with Montana Fish, Wildlife and Parks for specific licensing requirements (<https://fwp.mt.gov/fish/regulations>). If you have lived in Montana six months or longer, you are considered a resident and may apply for a resident license with certain requirements.

## LICENSE REQUIREMENTS

To fish in Montana, anglers need their conservation license, Aquatic Invasive Species Prevention Pass, and a fishing license. A conservation license is needed before you can buy any fishing or hunting licenses that Fish, Wildlife and Parks (FWP) issues. Conservation license applicants are required to provide their social security number in addition to information usually requested. A valid driver's license or a valid photo ID is required to purchase a license. A fishing license allows a person to fish for and possess most fish authorized by the state's fishing regulations (additional licenses needed for paddlefish and bull trout). It is nontransferable and nonrefundable. The license enables one to fish from March 1 through the end of February of the following year.

## FISH TECHNOLOGY CENTER

A tour of this center shows dedicated staff performing research of fish cultural techniques, fish diseases, fish-fed development, and testing, broodstock diet testing, and fishery management. Technical assistance in these areas provided to federal and state fisheries agencies and the private sector throughout the United States.

4050 Bridger Canyon Rd.,  
Bozeman, MT 59715 406-587-9265

## CATCH & RELEASE

The practice of catch and release is one that has grown extremely popular among Montana trout fishermen. Important steps to releasing fish to minimize include using barbless hooks, keeping fish in the water while removing the fly, wetting hands before handling fish for a picture, and avoid battling fish to exhaustion. When handling fish, cradle the trout gently with the hands under the belly and avoid squeezing fish — they do not bite! If reviving a fish is necessary, hold the fish gently with its head into the current until it swims away on its own.

# AQUATIC INVASIVE SPECIES

## PROTECT MONTANA WATERS – GET AN INSPECTION

To protect against the spread of aquatic invasive species, Montana law requires anyone coming into the state carrying or towing watercraft (motorized and non-motorized) to get an inspection before launching.

Montana law states:

Persons transporting watercraft must stop at all open watercraft inspection stations as directed by signs.

Persons transporting watercraft from east to west over the Continental Divide must be inspected.

It is illegal to transport AIS into or within Montana.

It is unlawful to transport baitfish into Montana. Leeches may be imported if purchased from an approved dealer and accompanied by a receipt.

It is unlawful to move live fish, aquatic invertebrates, or plants from one body of water to another.

It is unlawful to release any live aquarium fish.

For more information call: 406-444-2440

Visit: [www.CleanDrainDryMT.com](http://www.CleanDrainDryMT.com)

Facebook: Protect Our Waters Montana

Keep your boat and gear clean and free of debris.

Clean, drain and dry your boat and gear between uses to stop the spread of aquatic invasive species such as zebra mussels, invasive weeds, and disease-causing organisms.

Aquatic Invasive Species (AIS) are organisms that are unintentionally brought into Montana from other places. These include clams, fish, mussels, plants, weeds, and disease-causing pathogens.

AIS are not wanted here. They overwhelm lakes and rivers, kill fish and plants, and damage the delicate ecosystem that keeps our waters clean and abundant. AIS harms our recreational and agricultural resources by damaging boats and gear, clogging water pipes and hydropower facilities, jamming community water sources, and choking off irrigation systems.

AIS can be spread when anglers and boaters fail to clean, drain and dry their watercraft and fishing gear when moving from one body of water to another.

This illustration shows the key areas to Clean, Drain & Dry on any watercraft.

### How to Prevent Spread

Be aware that aquatic diseases and invasive species can easily spread from one water body to the other. Anglers, boaters and their equipment can transport these pests. It takes only one mistake to infest a new area. To protect Montana's waters and native aquatic species, please follow these guidelines:

1. **CLEAN** Completely remove all mud, water and vegetation from your boat, trailer, anchor, waders and other fishing and boating gear. Pay attention to crevices and hidden areas.
2. **DRAIN** Remove the drain plug before leaving the access area. Drain all water from watercraft including the bilge, live well, engine, internal compartments and bait buckets. Draining remove small and invisible organisms, such as invasive mussel larvae, that can be found in standing water.
3. **DRY** Aquatic invaders can survive only in water and wet areas. By drying your boat and fishing equipment thoroughly, you will kill most invasive species. The longer you can dry out your boat, trailer, waders, wading boots, and other equipment between trips, the better.

### What Local's Are Saying About *Jamie Chu*

**Jule**

Jamie's professionalism is unequalled. My experience with Jamie was so positive, that I enlisted her a second time to help me find my next home!

**Jack**

Amazing follow through on two transactions. If you are looking for an incomparable agent, select Jamie Chu as your Realtor. She is the best!

**Gary**

I couldn't find anyone who I would rather work with more. I have purchased and sold maybe 20 properties and I don't think there is any Realtor I have found better than Jamie!

**Sandra**

I was really comfortable with Jamie. She knows her market and what she is doing. Jamie listens to her clients wants, and fulfills their needs. She is A++++.
